LATEST FOREIGN NEWS.	
The steamer City of New York arrived Monday evening the 17th, seven days and seven hours from San Francisco. By sailing vessels, news was received on Friday and Saturday last, and the following is a summary of the news.	
<b>United States—Pacific Coast.</b>	
A terrific storm, the heaviest known for many years, raged throughout the country, from the ocean four or five hundred miles inland during the week prior to the 24th of April. Great damage was done along the line of the rivers in California and on the coast to shipping. The crop prospects are however improved. On the Sacramento the levees were broken in several places and the country flooded, with some loss of life and stock. In the mountains heavy snow fell, and washouts and landslides were frequent. The overland and other trains were delayed for several days, but at latest dates all was well.	
On the evening of the 23rd of April about 8 o'clock, Charles De Young, one of the editors and proprietors of the <i>Chronicle</i> was standing in the office of that paper conversing with two friends, when the door was opened and young I. S. Kalocho, son of the Mayor entered. De Young's back was turned towards the door, and no one observed the entry of Kalocho, till he fired his pistol, about two feet from De Young's head, but without effect, except to smash the glass in a door on the other side of the room. De Young instantly turned and seeing the position began a retreat towards the back of the office. Kalocho followed still firing, and as his enemy stooped behind the counter, leaned over and pointing his pistol down as De Young looked up, fired into his mouth. He then turned and left the building, but was arrested on the walk outside by some observers and turned over to the police. De Young died in about ten minutes without speaking. The excitement in the city was tremendous. Kalocho was locked up and refused to say a word to any one about the affair, but was perfectly cool and collected. It is supposed that his object was to prevent the trial of De Young which was set for May 2nd, when very damaging evidence against Mayor Kalocho was to be produced. De Young's body was taken to the Morgue, but as it passed through the streets an immense crowd of sand lotters and their friends, hooted and yelled attempting to overturn the wagon, they even attempted to break into the building for the purpose of wreaking their fiendish hate against their enemy. The city was strongly guarded all night and numerous arrests were made. It is regarded as a most brutal and cowardly murder.	
May 2nd the Committee of the Board of Supervisors presented articles of impeachment against Mayor Kalocho. The grounds relied upon are his official conduct in making use of incendiary language, in consequence of which trouble and riot had ensued, the public peace was disturbed, and property injured.	
Kearney's sentence has been confirmed by the Superior Court.	
<b>Atlantic States.</b>	
The Season has commenced by a terrible succession of storms, fire and disaster. On the 16th of April a violent hurricane struck the town of Marshfield, in Missouri. A man, who came to the depot at the edge of the town while the train was there, reported that at 6:30 o'clock a furious hurricane struck the place and leveled all that part of the town lying west of Center square flat to the ground. The debris immediately took fire in several places, and flames could be seen at some half a dozen points by persons on the train. Forty dead bodies had been taken from the ruins at last accounts and many more were buried.	
In Mississippi on the 25th about 8 o'clock p. m. a cyclone struck the town of Macon causing great loss of life and property.	
There were raging in the oil regions of Pennsylvania and in the woods of New Jersey whereby immense amounts of property were destroyed and some lives lost.	
New York, May 9.—The <i>World</i> says that since the Ohio Convention met, Tilden has determined to prepare a letter of withdrawal with power of attorney to his delegates to name a candidate.	
The steamer <i>Dag</i> from Antwerp arrived to-day and reports ice fields, ice block and icebergs, one of the last-mentioned being as large as an island, from April 26th to May 3d, and was obliged to stop the ship at night, owing to the presence of icebergs. Sighted two ships in a field of ice, but they offered no signal.	
The <i>Herald's</i> Washington special says: The President is understood to be strongly in favor of the Nicaragua route for an inter-ocean canal, and if the report by cable proves true, that an American Company has received liberal concessions for a canal from the Government of Nicaragua, it will receive prompt encouragement from the White House, as against De Lesseps' scheme.	
Two of the United States Courts which open the spring terms here on Monday. They will be unable to proceed with jury trials, as the funds to pay jurors are exhausted.	
<b>South America.</b>	
WASHINGTON, May 3.—A telegram was received to-day at the Legation of Chili from Panama, which says the Chilean navy bombarded Callao on the 23d of April, causing heavy damages on the shore and nearly destroying the Peruvian corvette <i>Union</i> . Lima is threatened by the Chileans, and great distress prevails.	
The Peruvian government and people appear to be perfectly demoralized and incapable of any resistance to their victorious enemies.	
<b>European—England.</b>	
The Beaconsfield Cabinet has resigned. Gladstone was sent for by the Queen and has made up a new Cabinet. Granville is in charge of the foreign department. Lord Hartington is Secretary of State for India. Mr. Childers for war. Mr. Forster for Ireland. Lord Selborne is Lord Chancellor.	
The Tories assert that Austria demanded and received an apology for Gladstone's luncheon respecting the Austrian Emperor, and the Austrian policy, in regard to the Balkan principalities. The contrary is true. No formal demand was made, but a suggestion from Vienna that an explanation would be acceptable elicited a courteous but firm declaration that the English Government intends to hold Austria to a strict compliance with the Treaty of Berlin, and will require the ultimate evacuation of Bosnia and Herzegovina, being in favor of the development and independence of the nationalities. Gladstone caused the Emperor to understand that the language he used toward him, while meaning no personal disrespect, required no excuse. Subsequent semi-official telegrams from Vienna indicate that Austria acquiesces in the Balkan programme. The present military will give a public definition of its whole policy on the Eastern question in the expected circular to the European Governments. In the Austrian affair and other matters, Earl Granville has shown firmness, dissipating already the continental notion that the English policy is capable of being affected by vague menaces. Diplomats applaud the promptitude shown in respect to the Montenegrin difficulty. Earl Granville having within a few days secured a converted European demand that the Porte should first reoccupy the districts seized by the Albanians and then deliver them to Montenegro as agreed. The appointment of Goshen as Ambassador to Turkey further signifies Earl Granville's determination to enforce her treaty obligations on Turkey.	
A correspondent in the <i>Paris Times</i> says: At his first official reception Earl Granville, Secretary of State for the foreign department, declared that the new British Cabinet frankly recognize the maintenance of the Treaty of Berlin; that it will enter into no Continental alliance, that it will continue the present cordial relations with France; that it will support the Greek claims, even beyond the demand urged by the French Cabinet, and will endeavor to maintain the existing harmony in the Anglo-French control in Egypt.	
<b>France.</b>	
Paris, May 6.—The Council of Ministers to-day deliberated regarding the execution of the decrees against unauthorized congregations. The Government is firmly determined to apply the existing laws. Up to the present time no congregation has applied for authorization.	
The condition of France has rarely been more tranquil and promising. Taxes, though enormous, are collected without trouble, and they greatly exceed estimates. The difficulty is how to make the most equitable remissions.	
<b>Germany.</b>	
Bismarck is suffering from neuralgia and will shortly go to Lungenitz. Count Von Hatzfeldt will assume the Foreign Office.	
Gladstone's accession to power is received here with little apprehension. Granville's appointment is gratifying to Germans, and it is thought there will be no radical change in the foreign policy of the British Government.	
<b>Mexico.</b>	
Dispatches to May 6th, state that the volcano at Colima continues in active eruption. The town	

of Lorilla, at the foot of the volcano, is reported to be sinking. The inhabitants, panic-stricken, are abandoning their homes.

A heavy earthquake was felt at Haeula, in the State of Oaxaca, yesterday, passing north to south.

**THEY SAY**  
**IT'S A GOOD THING!**  
**BUT IT CAN'T BE DONE!**

**There is No Money in the Country.**  
**The "Credit System"**  
has been too long established to be changed to a "Cash Basis," etc., etc.

Two months' experience since our  
**NEW DEPARTURE**  
proves that what "They Say" is not true in this case, if in every other.

**There is Cash enough in the Country**  
like "music in the deep," it only needs to be drawn to the surface.

**OUR CASH BASIS**  
has had the magic power to end the troubled coin. The "New Departure" has shown up the "Credit System" in its true light. Careful buyers declare that "Credit" is an expensive luxury.
